## – History, family, passion.

In the early 60s Giuseppe Arangiaro begins the adventure. Soon he realizes that Made in Italy is a guarantee of success and begins the exportation of his creations: in a few years he becomes one of the largest exporters of modular kitchens, enough to persuade an American multinational to believe in him. The same philosophy and dedication to work lives through KICO, founded years later by Giuseppe's daughter and her husband Quinto.

The "Made in Italy" and the quality of its products represent the two pillars on which the company creates value for its customers. The design, the quality and service have allowed the company to reach global markets and to affirm its idea of a beautiful home, well made and made in Italy!

## Technology, production, service.

KICO has a production center of about 17.000 square meters of surface. The ultra-modern and highly efficient Kico systems produce just in time with innovative materials, a wide range of programs for the living and sleeping areas.

The technology of the production plants, through the latest machinery, allows to competitively create a large number of models for any budget.

The technology of the production plants, through the latest machinery, allows to competitively create a large number of models for any budget.

# Project One

---

Tables/Chairs/Sideboard

## Iron Table

Thin table presented in the fixed and extendable configuration, characterized by a 2 mm thick sheet metal finish on the upper floor and by the underlying structure in 30x30 mm iron tubulars. A minimal table proposed in three different chromatic variations, structurally strong and with an industrial character, adaptable to various environmental configurations.

## Ella Chair

Chair with low backrest and seat supported by leather only, available in 3 colors.

## Teca Fissa Sideboard

Sideboard with a light and dynamic structure, original in its construction and in the customization of the individual modules.

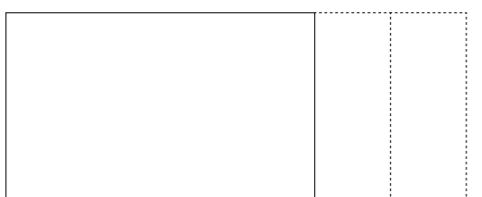

**IRON table**

- Available modules

• L 900 •

• L 1400 • L 450 • L 450 •

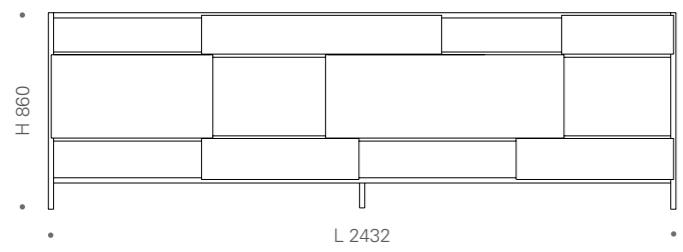

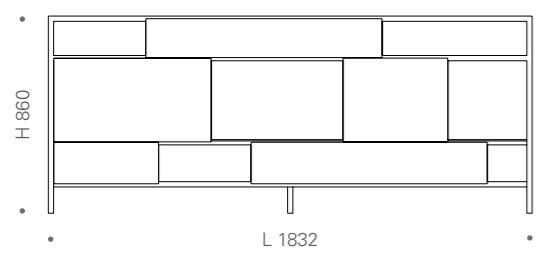

• L 1600 •

**TECA FISSA sideboard**

- Available modules

Kico

## Project Two

---

### Pisa Table

The Pisa table is characterized by a truncated-conical leg covered in wood and dyed in the available finishes. On the central leg a circular top is fixed in available finishes. The characteristic of the table is the optional swivel top, managed with an independent finish with respect to the fixed top, in order to ensure a chromatic play and combinations of different finishes.

The configuration 01 without the aforementioned revolving plane has a circular, fixed and continuous plane. The Pisa table is presented in the fixed configuration.

### Nevis Chair

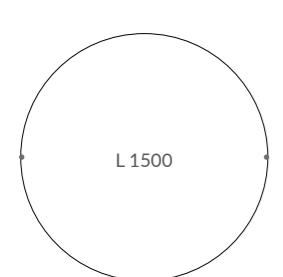

Chair with solid wood frame, seat with elastic straps and polyurethane padding.

### Audrey Sideboard

Mobile Living type sideboard in different dimensional conjugations, from the simple bench to the high cabinet to "cupboard".

To project the Audrey sideboards it is possible to use the Audrey Tray and the Frame designing free composition combining these elements with furniture present into the Day Collection pricelist -Living system and bookcases.

**PISA table**

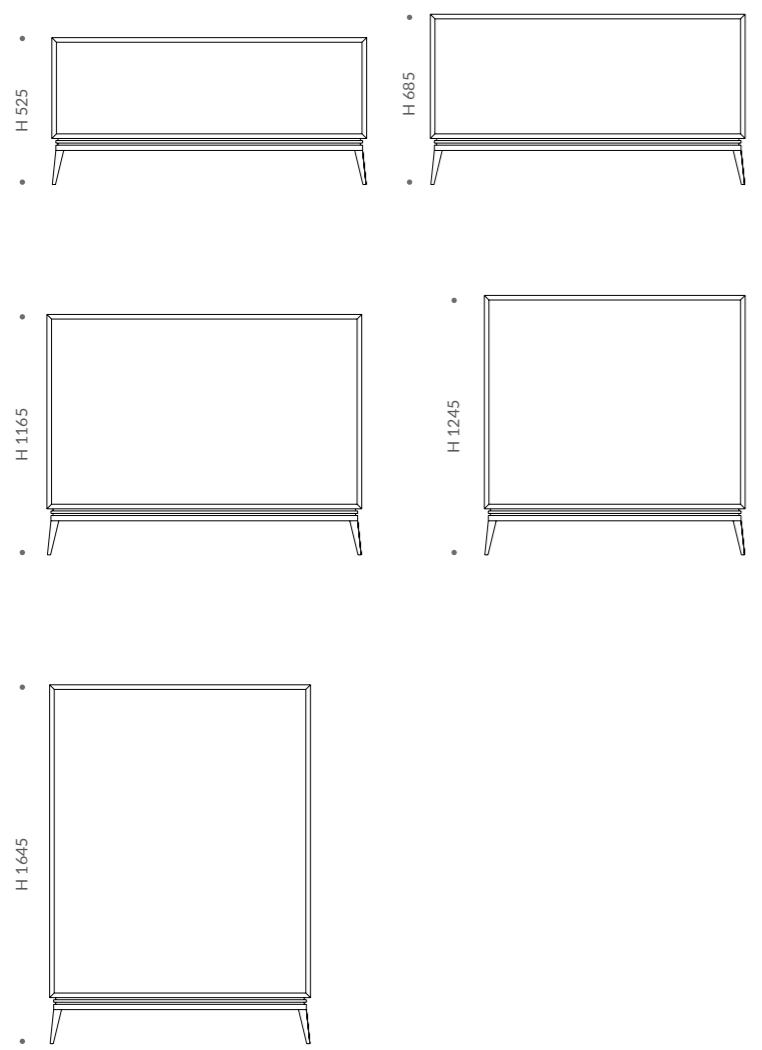

- Available modules

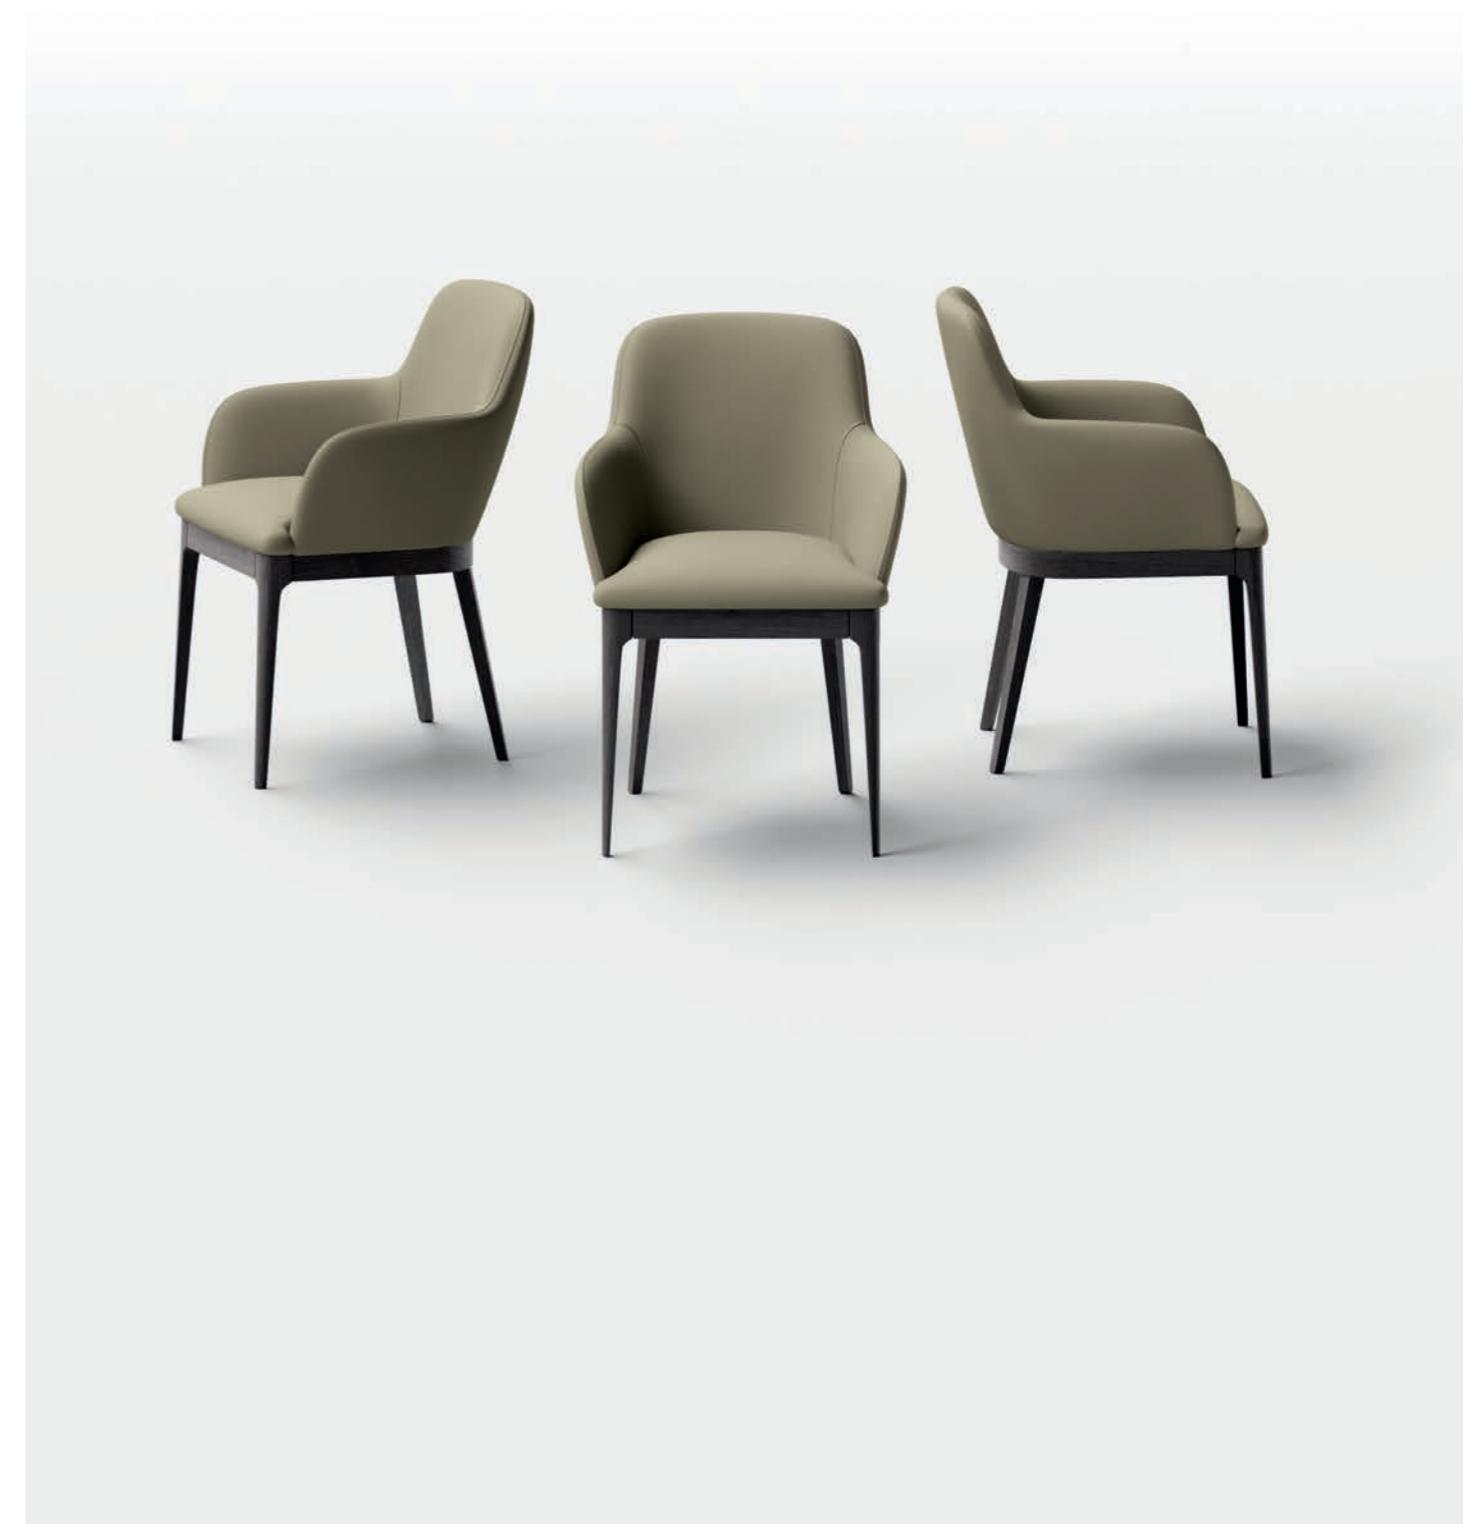

**AUDREY sideboard**

- Available modules

# Project Three

---

Tables/Chairs/Sideboard

## Moor Table

Fixed top characterized by six different configurations and various finishes. Presented in Materic-Chromatic combinations that allow to combine the finishes of the upper floor with the various available types of structure.

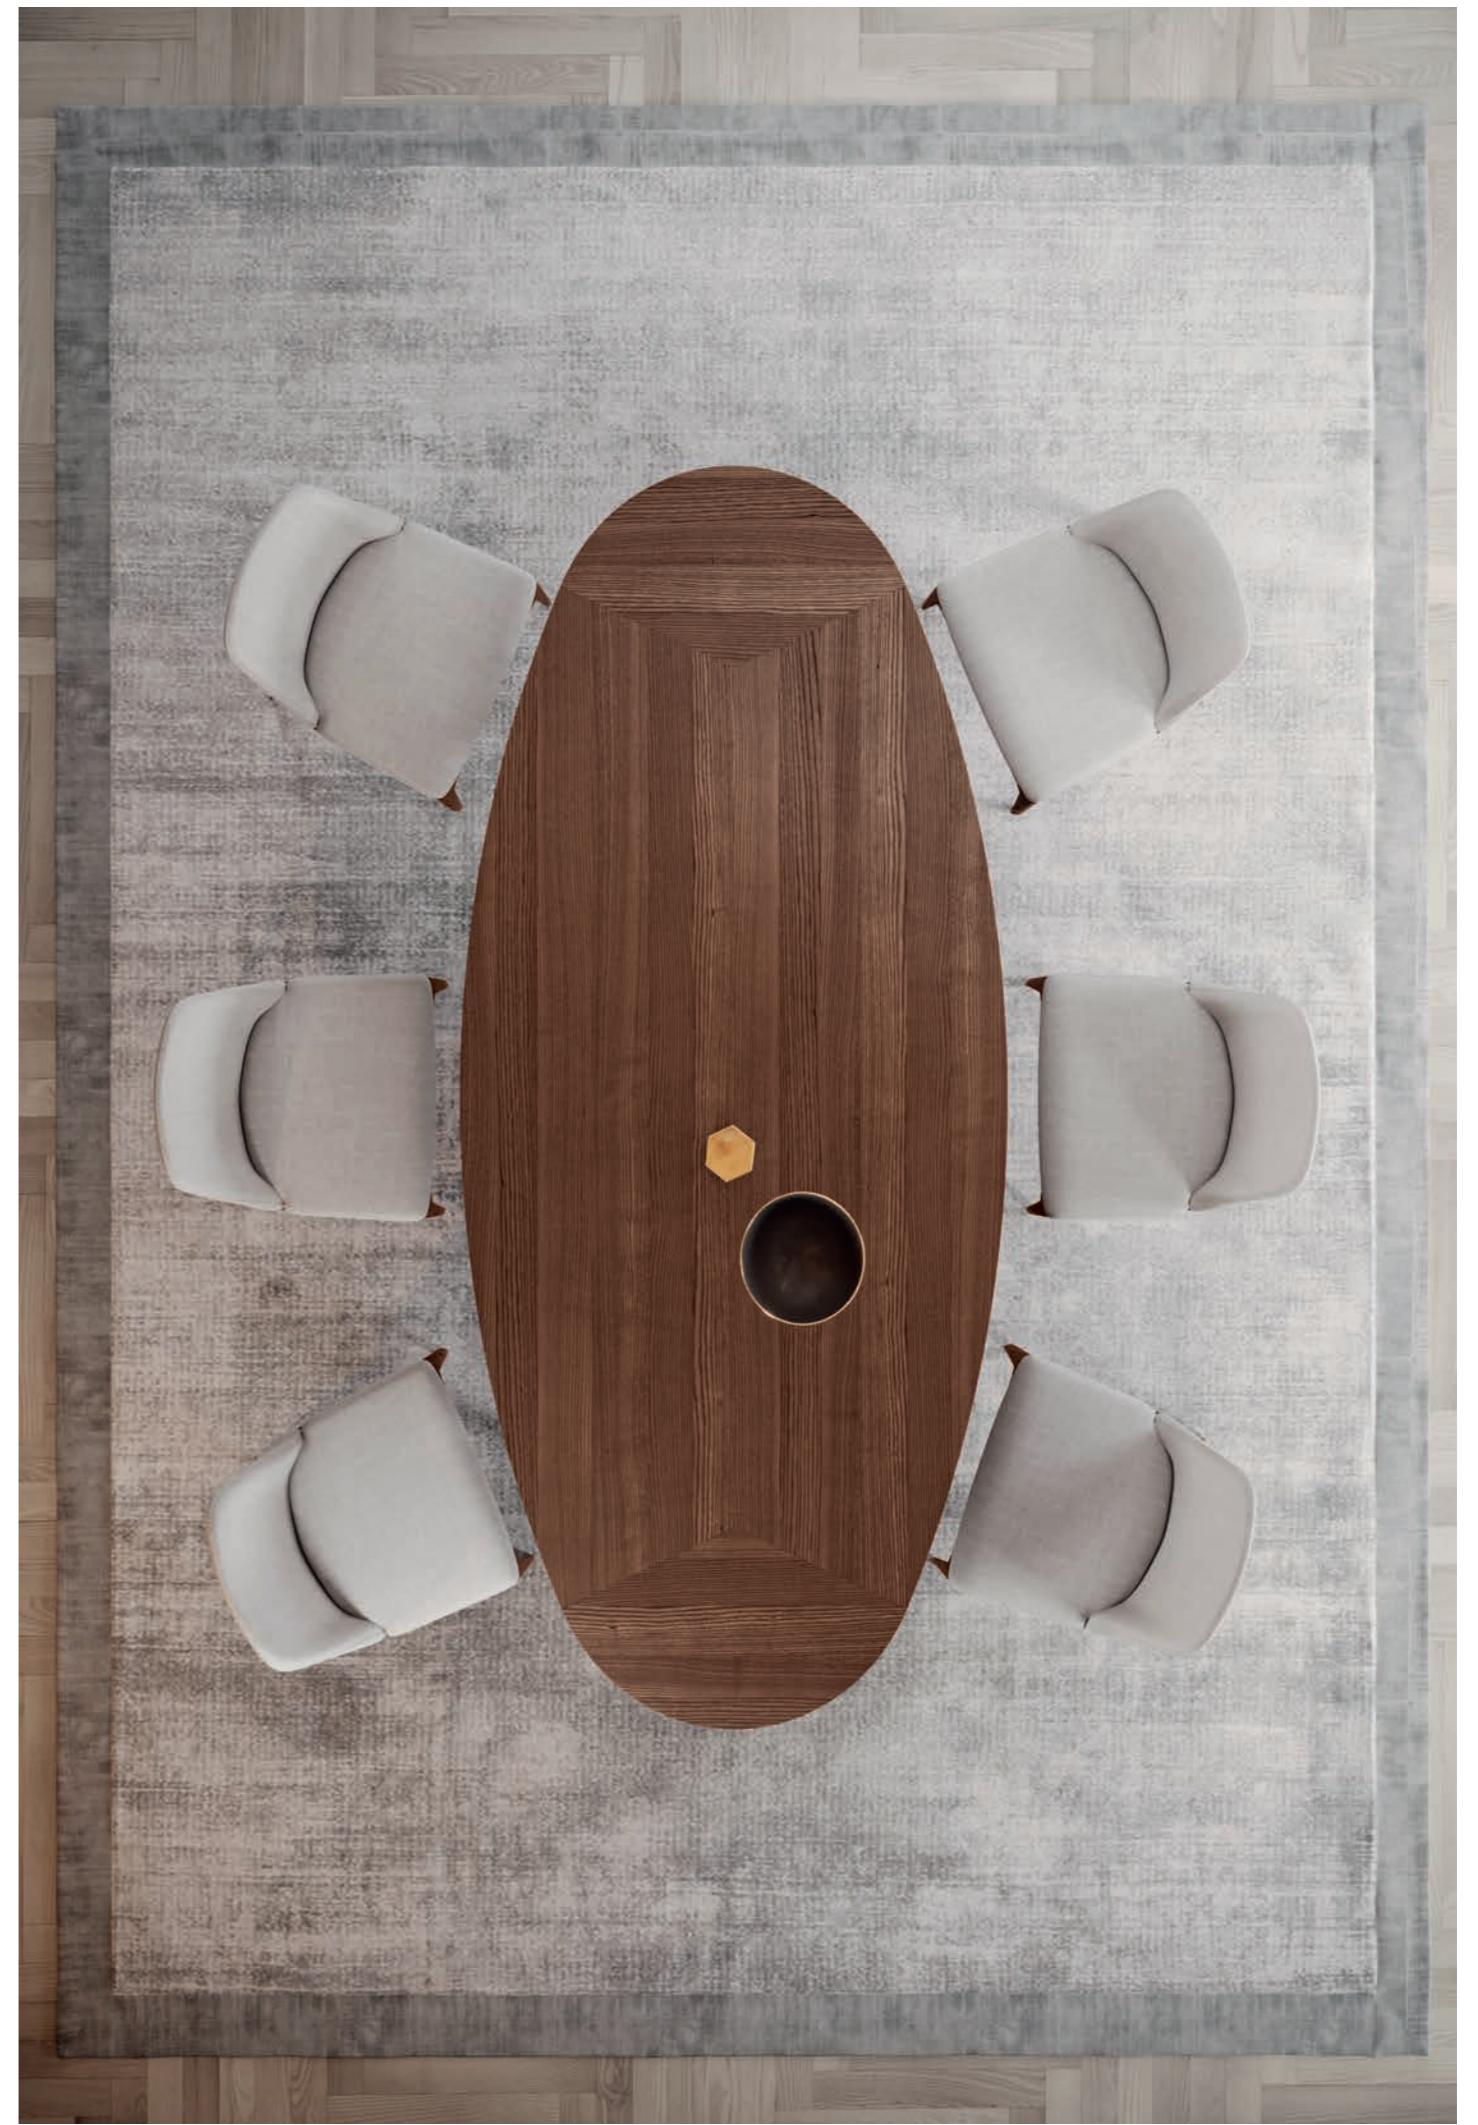

The Moor table is a dynamic story played on contrasts, the fluid and soft lines of the upper tops, the wise and elegant joint of the wood grains of the various essences, relate to the structural crosspiece characterized by a solid wood structure with shaped hooks and tapered legs.

## Nevis Chair

Chair with solid wood frame, seat with elastic straps and polyurethane padding.

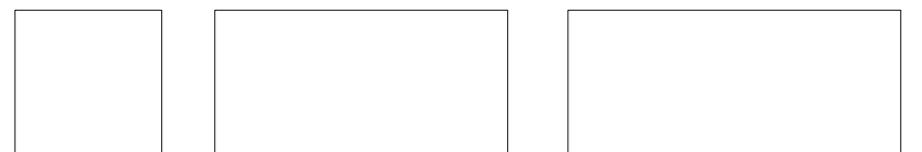

## Viki Sideboard

Sideboard supported by thin "L" shaped metal legs, which contrast with the compact volume of the structure.

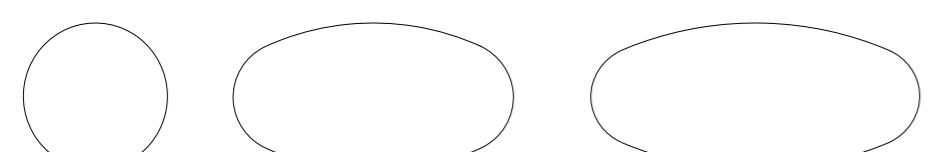

**MOOR table**

- Available modules

• L 1500 • L 2000 • L 2400 •

• L 1500 • L 2000 • L 2500 •

• L 2420 •

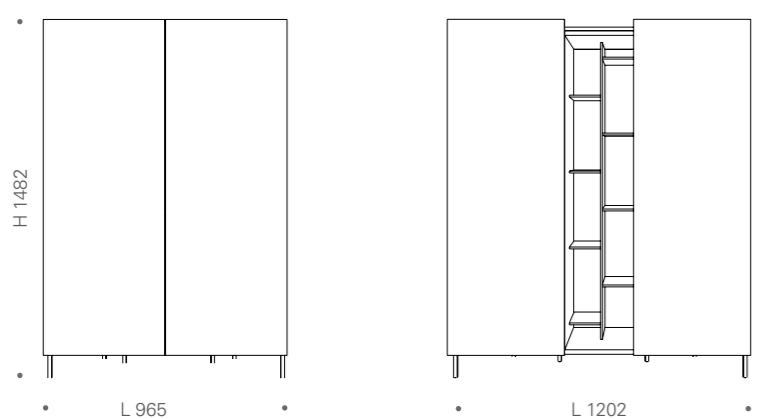

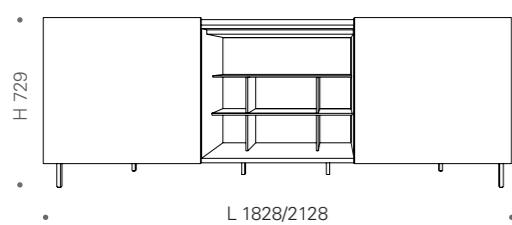

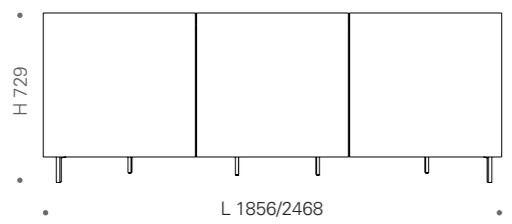

**VIKI sideboard**

- Available modules

# Project Four

---

## Affioro Table

The Affioro table is characterized by a solid wood structure, dyed in the available chromatic finishes, which holds an upper top in Marble or in Sintered Stone. The top, not completely drowned inside the structure, left partly visible on all four sides, creates an elegant and interesting chromatic contrast. The tapered and rounded legs complete the profile of the table, lightening it. The Affioro table is presented in the fixed configuration.

## Woody Chair

Modern chair with armrest in solid ash wood and seat in pressed wood, padded with elastic polyurethane foam.

## Gold Sideboard

Strictly designed sideboard that shows its versatility in its customizations and compositions.

**AFFIORO table**

- Available modules

L 1600

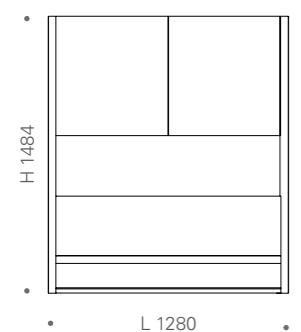

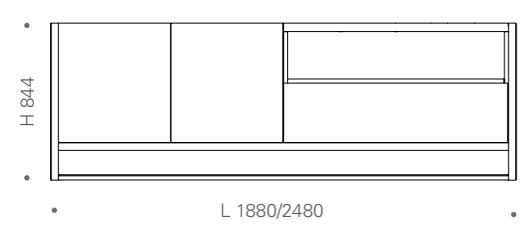

L 2100

**GOLD sideboard**

- Available modules

# Project Five

---

## Gold Table

Solid wood table covered in the available woods. Upper top and structure are a single body characterized by an unique finish. The trapezoidal feet determine the visual perception of the Gold table together with the upper staves of the top. The directional change of the grain and the cuts related to the hooks between the feet and the top, in addition to the slats with variable width characterize the profile of the table. A table with strong lines and at the same time a balance of proportions. Fixed or extendable ensures flexibility in the choice.

## Ambra Chair

Frame in dyed solid wood, monocoque in multilayered and padded in elastic polyurethane foam.

## Arya Sideboard

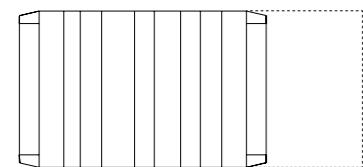

Frame in dyed solid wood, monocoque in multilayered and padded in elastic polyurethane foam.

**GOLD table**

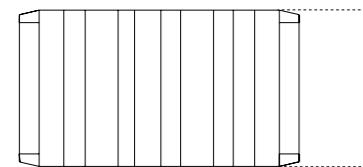

- Available modules

• L 2110 •

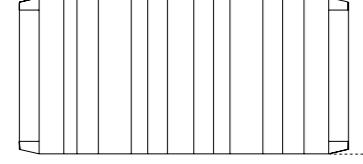

• L 1510 • L 600 •

• L 2750 •

• L 1690 • L 530 • L 530 •

• L 3060 •

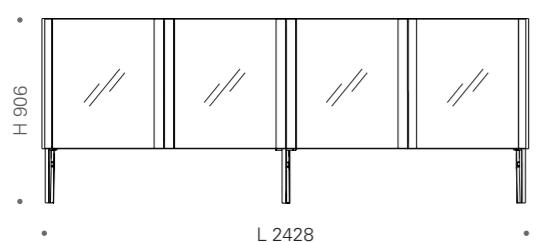

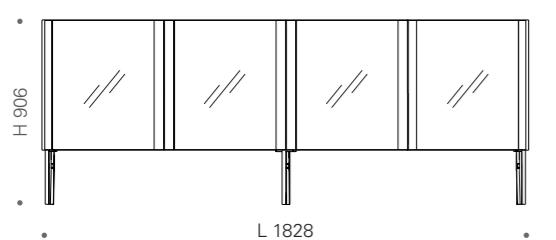

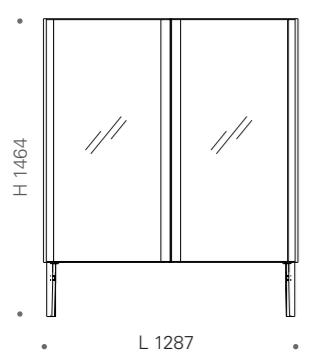

• L 2000 • L 530 • L 530 •

**ARYA sideboard**

- Available modules

# Project Six

---

Tables/Chairs/Sideboard

## Wood Table

Wooden table with solid wood legs characterized by a trapezoidal cut and smooth wooden top in the same finish of the leg.

## Flo Chair

Chair with solid wood frame, seat with elastic straps and polyurethane padding.

## Grace Sideboard

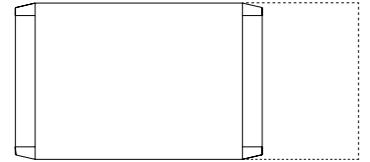

Coplanar sideboard with sides, doors and top with 45 ° cut.

**WOOD table**

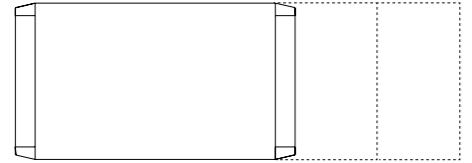

- Available modules

• L 2110 •

• L 1510 • L 600 •

• L 2750 •

• L 1690 • L 530 • L 530 •

• L 2000 • L 530 • L 530 •

**AUDREY sideboard**

- Available modules

# Project Seven

---

## T-One Table

The T-ONE table is a fixed, comfortable and slim table. Presented in two configurations - rectangular and square - it is characterized by a linear profile of 30 mm that runs along the entire table and characterized by legs with a square section 30x30mm.

## Ella Chair

Chair with low backrest and seat supported by leather only, available in 3 colors.

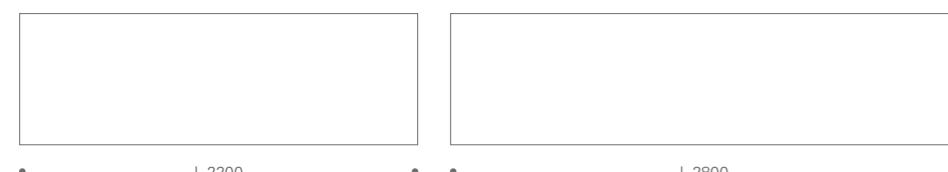

## Emme Sideboard

The cupboard that customizes the spaces with different shapes and colors interspersed with solid and elegant structures.

**T-ONE table**

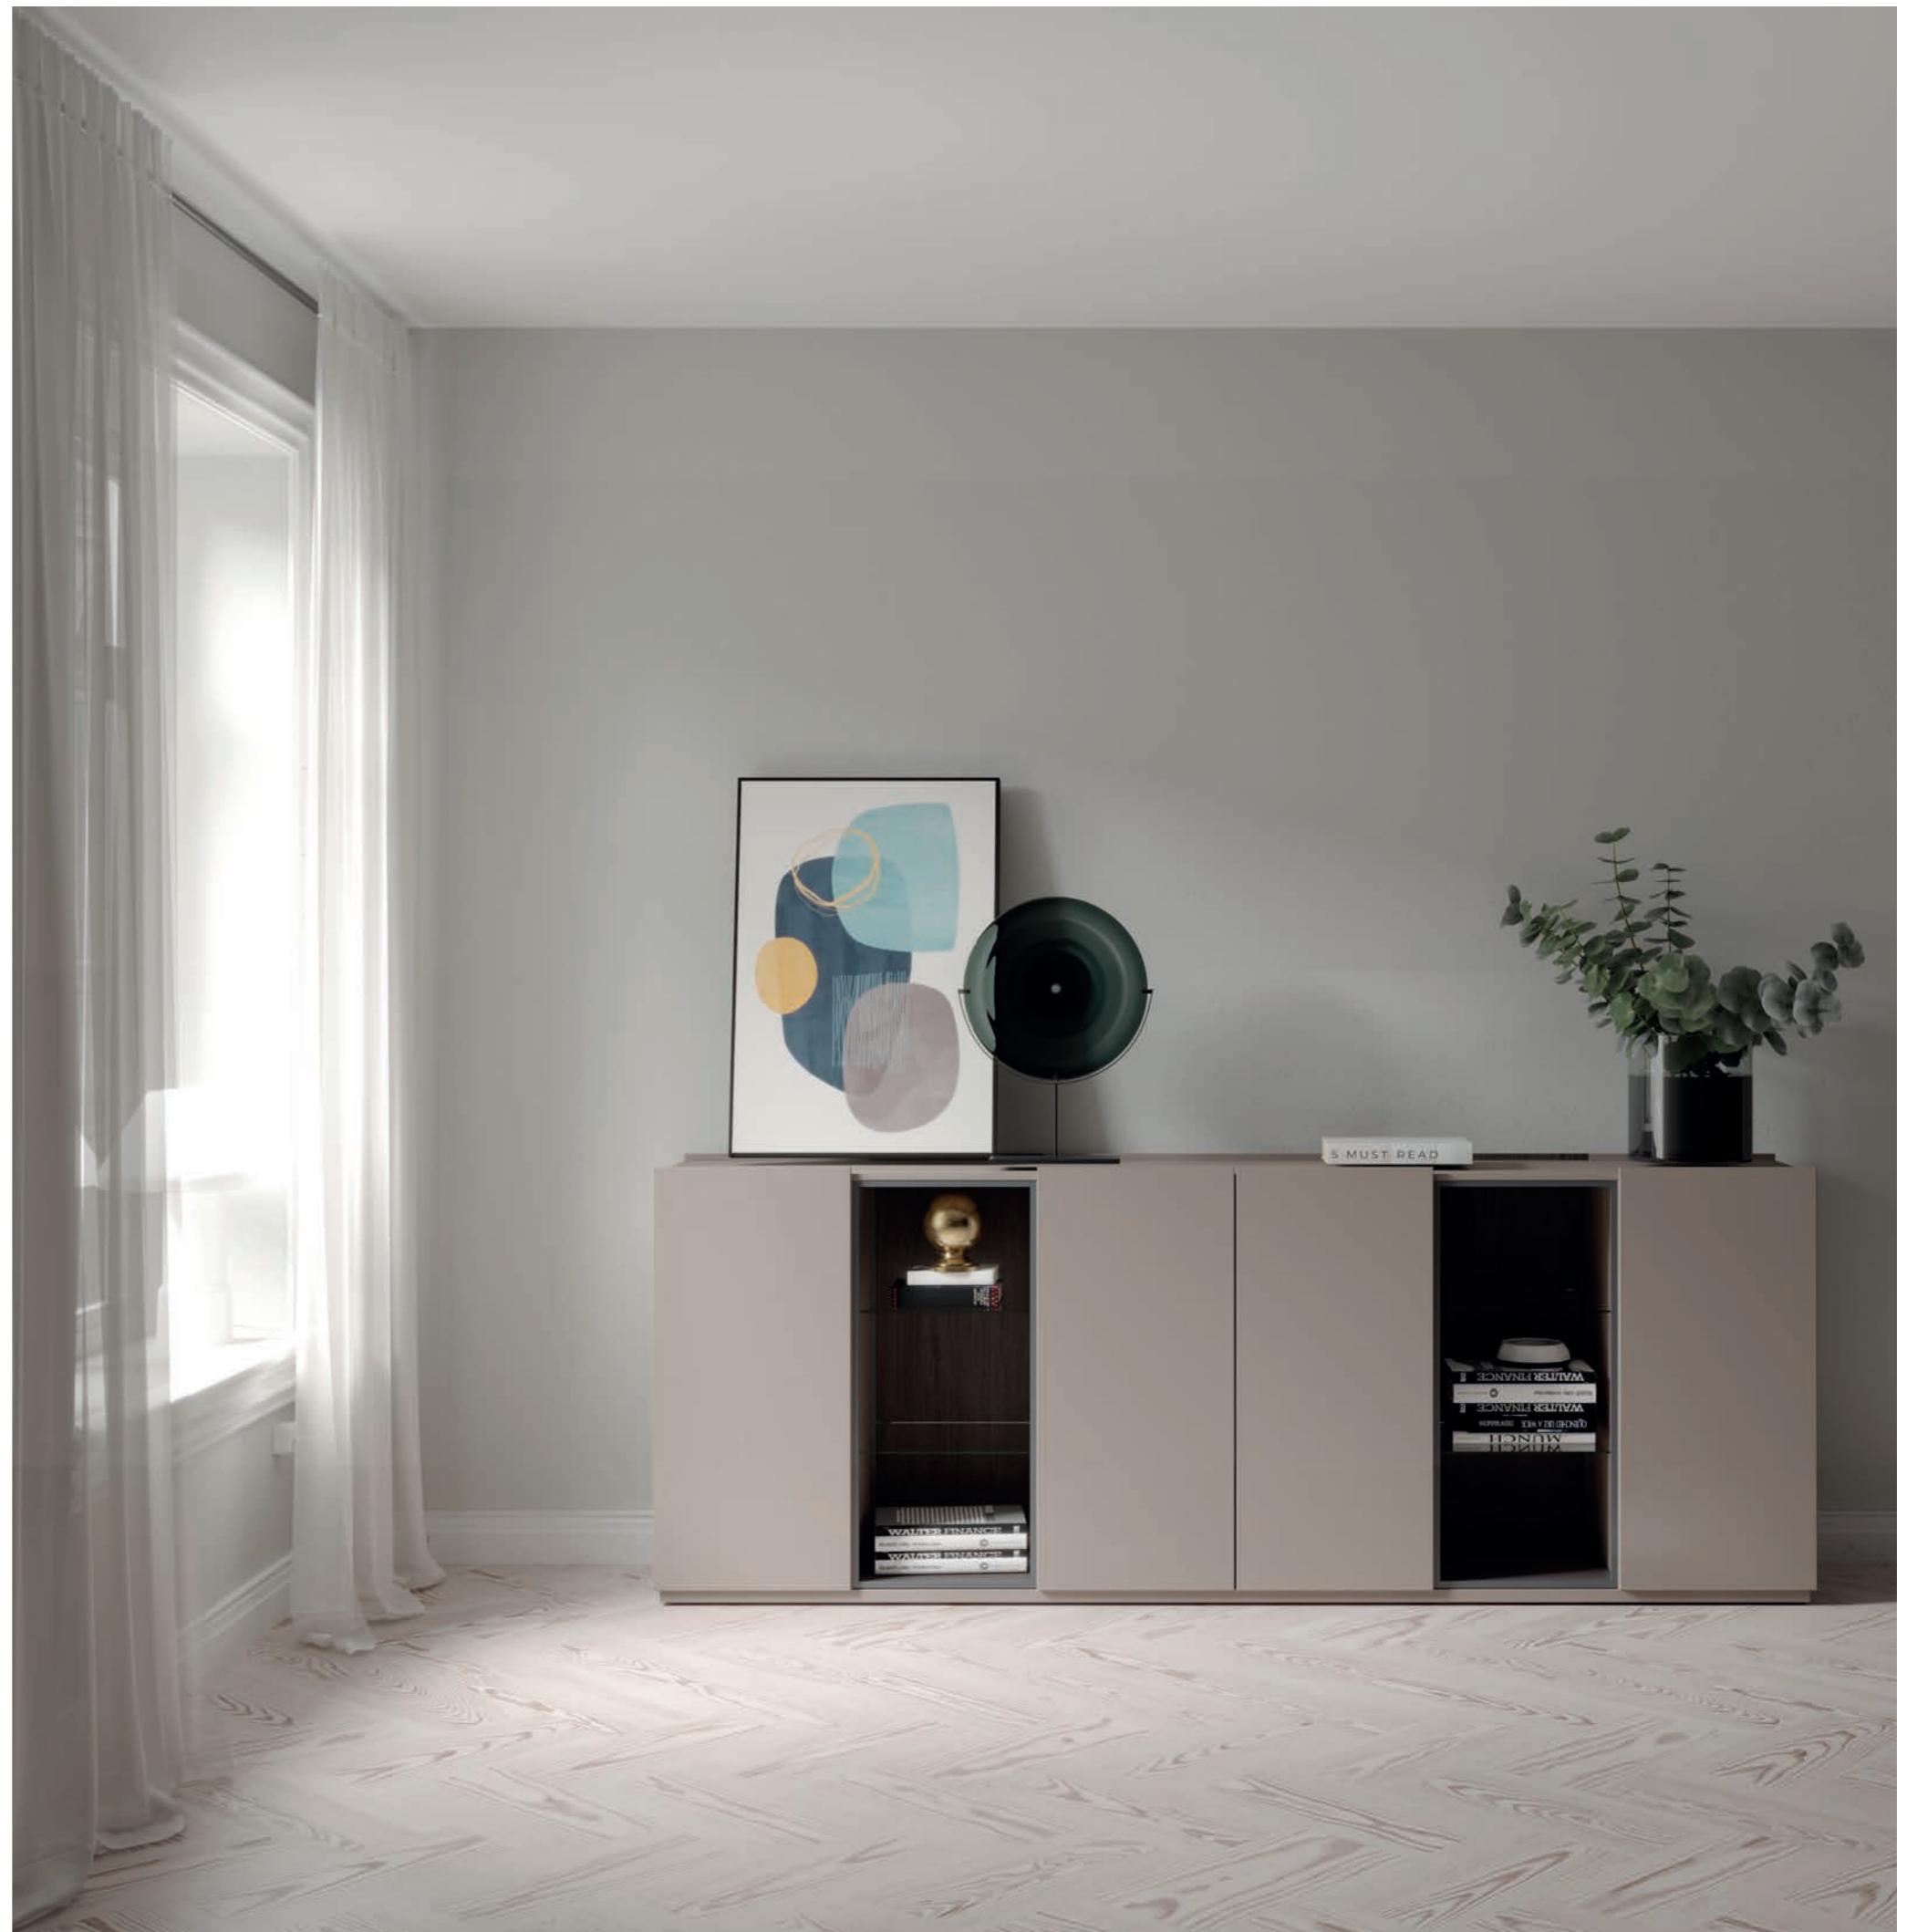

- Available modules

**T-ONE table**

- Available modules

Emme's configurations: the configurations shown on the pages are only some ideas of the endless configurations that can be made using the Emme's system.

# Project Eight

---

## Tree Table

Table characterized by a thick upper top, available in various finishes, supported by a structural metal leg fixed to a floor plate. The foot, which characterizes the design of the table, simulates with its shape the branching of a tree finding the fixing of the four inclined legs in a position designed to ensure structure at the table and minimum bulk for the sessions that will insist on it.

## Stephanie Sideboard

Coplanar sideboard with sides and raised doors, characterized by a tray top.

Coplanar Wall Unit. Elegant and linear solution for the living area, perfect in case of long and shallow walls.

**TREE table**

# Project Eight

Tables/Chairs/Sideboard

## Penelope sideboard

Basic sideboard, meeting point between the Sideboards collection and the Living collection. Freedom of composition, design played with full and hollow, simple and complex openings. Asymmetrical column cupboard, simple and clean. The central lacquered leaf breaks the continuity of the lines giving strong expressiveness.

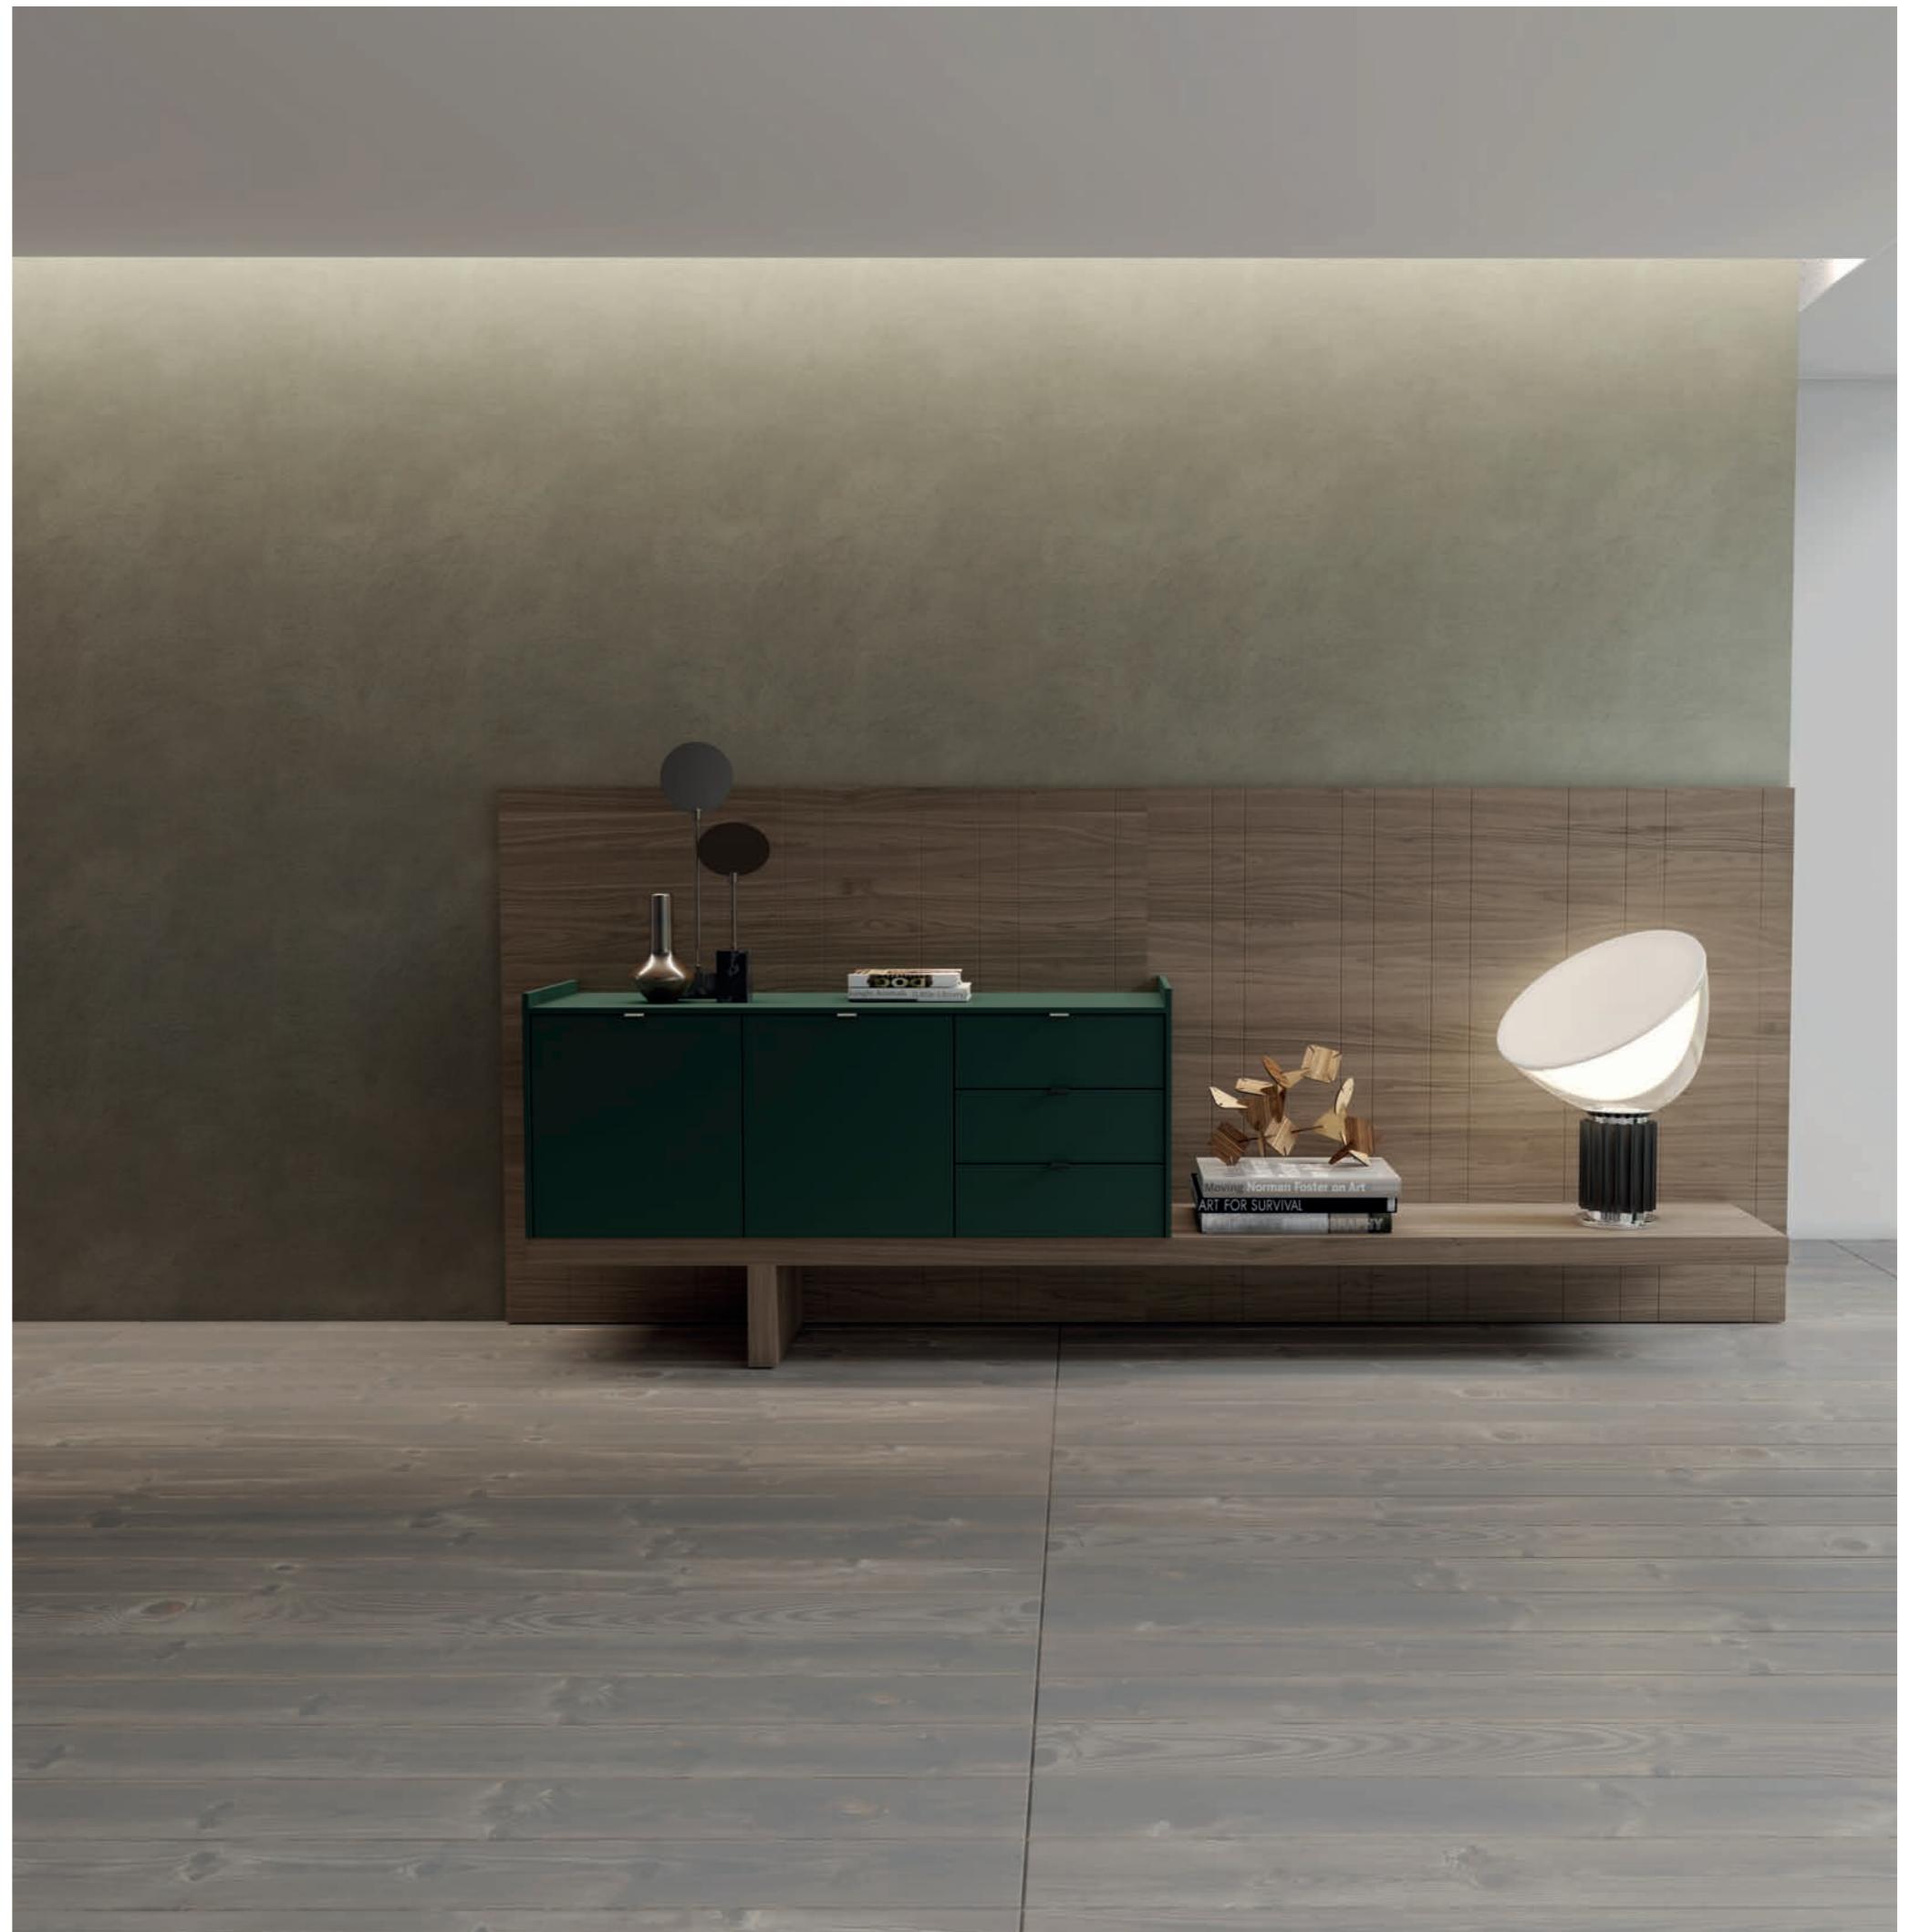

**PENELOPE sideboard**

- Available modules

Penelope's configurations: the configurations shown on the pages are only some ideas of the endless configurations that can be made using the Penelope's system.

## Certifications

## ISO 9001:2015 certificazion

-The KICO company makes use of the ISO 9001: 2015 CERTIFICATION for the design and production of furniture for the Day area, the Night area and accessories.  
A quality management system is nothing more than the best "modus operandi" to try to guarantee quality throughout the journey, starting from the definition of the customer's needs up to their satisfaction, by going through the various company activities (the so-called PDCA Cycle).

## FSC - certification of good forest management

Il marchio della gestione  
forestale responsabile  
FSC® C148007

PRODOTTI CERTIFICATI FSC® DISPONIBILI SU RICHIESTA.  
ASK FOR FSC® CERTIFIED PRODUCTS.

- FSC is a product certification that guarantees the origin of the cellulose raw material from certified forests, therefore managed in a sustainable way.  
The reasons that drive the company to undertake this project are those of guaranteeing and demonstrating the correct use of products of forest origin, in order to increase the area of global forests managed in a sustainable way.

## CARB2

- The CARB2 certification is issued by the suppliers / producers of panels with a card certifying the formaldehyde emission of such a product. The emission value must be below 0.09 ppm.  
The company engages to request this certification from its manufacturer, and to keep the required documentation for at least two years.

## Pannelli fotovoltaici

- Kico embraces the business philosophy committed to reducing pollution, contributing to energy saving and promoting environmental sustainability through the use of photovoltaic panels.

— Trasformare uno stile di vita in una casa da vivere, coniugando l'ascolto attento delle esigenze di ogni cliente e l'eccellenza del Made in Italy nel mondo: questa è la missione nata 60 anni fa nella mente del fondatore e portata avanti ogni giorno dal genero Quinto Grossi e dalla figlia Domenica Arangiaro attraverso la Kico, un'azienda fatta di persone e valori autentici e situata in Abruzzo, la regione che la ospita e dalla quale trae tutta la forza della sua identità.

— Sixty years ago, the founder set a mission: transforming a lifestyle into a home, matching customer needs and the Made in Italy excellence. This mission has been carried out by the son in law Mr. Quinto Grossi and the daughter Mrs. Domenica Arangiaro through Kico, a company made by its people and authentic values. Kico is located in Abruzzo, the region which provides the company its strong identity.

— Transformer un style de vie en une maison, combinant l'écoute attentive des besoins de chaque client avec l'excellence du Made in Italy bien connu dans le monde: c'est la mission qui a eu lieu il y a 60 ans dans l'esprit de le fondateur et a été transmise tous les jours des le généreux Quinto Grossi et la fille Domenica Arangiaro à travers Kico, une entreprise composée de personnes et de valeurs authentiques, située dans les Abruzzes, la région qui l'accueille et qui inspire toute la force de sa identité.

— Transformar un estilo de vida en un hogar para vivir, combinando la escucha atenta de las necesidades de cada cliente y la excelencia del Made in Italy en el mundo: esta es la misión que nació hace 60 años en la mente del fundador y llevado adelante por todos los días gracias a el yerno Quinto Grossi y la hija Domenica Arangiaro a través de Kico, una empresa compuesta por personas y valores auténticos, ubicada en Abruzzo, la región que la acoge y donde la empresa saca toda la fuerza de su identidad.
