- ELEMENTO BOX | BOX ELEMENTS
- TOP E BASAMENTO | TOP AND BASEBOARD
- TECA MIDI | TECA MIDI
- SCHIENA TECA MIDI | BACK PANEL TECA MIDI

**① BASAMENTO - SP. 30 MM  
BASEBOARD- THK. 30MM**

Basamento di appoggio a terra strutturale. Il basamento è elemento indispensabile per il funzionamento della madia Emme. La foratura integrata e dedicata alle varie configurazioni funziona da ditta per il posizionamento degli elementi che su di esso vi poggiano e vi vengono fissati. Piedini regolabili integrati.

Structural base used to place the sideboard on the floor. The base is an indispensable element to create the right support on the floor. The integrated drilling, and dedicated to the different configurations, works as a template to place and fix the single modules on the base. It is equipped with integrated adjustable feet.

**② MODULO TECA MIDI TERMINALE (SX)  
TERMINAL MIDI TECA MODULE (LEFT)**

Modulo Teca Midi utilizzabile come elemento terminale a sinistra e/o destra. La teca metallica in tubolari 15x15mm in ferro laccato è sempre provvista di pannello schienale e di pannello mezzo fianco di finitura. Schiena customizzabile ed illuminazione led integrata opzionale.

The Teca Midi module can be used as a terminal element on the left/right of the sideboard's composition. The lacquered metal structure with tubular profiles 15x15mm, following the available finishes, is always equipped with a refined back panel and with a panel half side. The back panel can be customized and optional integrated LED lighting.

**③ MODULO BOX DEDICATO  
DEDICATED BOX MODULE**

La madia Emme presenta diversi moduli box dedicati da poter utilizzare nella progettazione della composizione. I moduli box variano per altezza e larghezza oltre che per configurazione. Moduli box sempre provvisti di pannelli schiena di finitura.

The Emme sideboard has several dedicated box modules that can be used in the design of the composition. The box modules have different heights and widths as well as configuration. Box modules always equipped with finishing back panels.

**④ MODULO TECA MIDI CENTRALE  
CENTRAL MIDI TECA MODULE (LEFT)**

Modulo Teca Midi utilizzabile come elemento centrale. La teca metallica in tubolari 15x15mm in ferro laccato è sempre provvista di pannello schienale. Schiena customizzabile ed illuminazione led integrata opzionale.

The Midi Teca module can be used as a central element of the sideboard's composition. The lacquered metal structure, tubular profiles 15x15mm, following the available finishes, is always equipped with finishing back panel. The back panel can be customized and optional integrated LED lighting.

**⑤ MODULO TECA MIDI TERMINALE BATTENTE (DX)  
TERMINAL HINGED MIDI TECA MODULE (RIGHT)**

Modulo Teca Midi utilizzabile come elemento terminale a sinistra e/o destra. La teca metallica in tubolari 15x15mm in ferro laccato è sempre provvista di pannello schienale, di pannello mezzo fianco di finitura e di anta battente speciale "L shape" dotata di cerniera a molla ed incontri di chiusura. Schiena customizzabile ed illuminazione led integrata opzionale.

The Midi Teca module can be used as a terminal element on the left/right of the sideboard's composition. The lacquered metal structure, tubular profiles 15x15mm, following the available finishes, is always equipped with finishing back panel, panel half side and special Hinged door "L shape" with standard spring hinges and closing. The back panel can be customized and optional integrated LED lighting.

**⑥ TOP DI FINITURA SUPERIORE - SP. 14 MM  
FINISHING UPPER TOP - THK. 14 MM**

Top di finitura obbligatorio nella progettazione delle composizioni madia Emme. Il top, gestito al metro lineare, permette di rifinire la superficie superiore della composizione madia e di unificare tale superficie. Il top superiore è presentato nelle finiture disponibili.

Finishing top mandatory in the design of the Emme sideboard compositions. The top, managed by the linear meter, allows to finish and unify the upper surface of the sideboard composition. The upper top is presented in the available finishes.

### NOTE | NOTES

#### ILLUMINAZIONE INTERNA | INTERNAL CASE - THICKNESS 22/30 MM

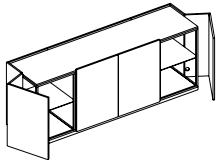

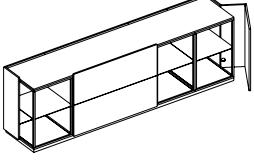

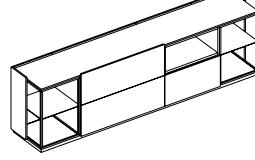

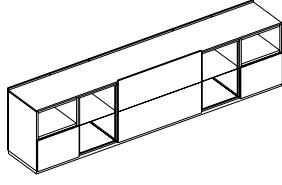

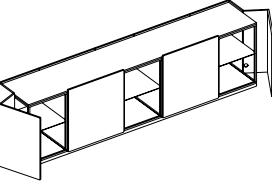

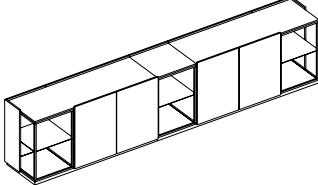

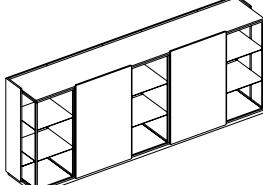

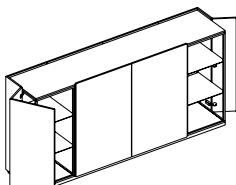

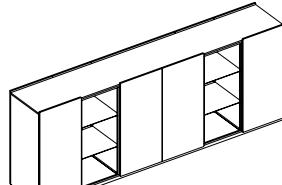

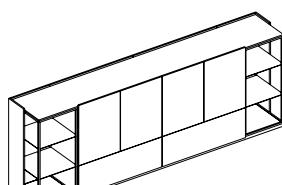

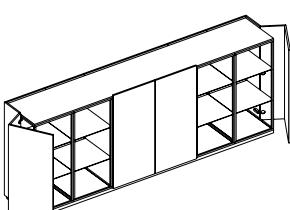

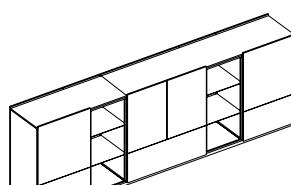

Illuminazione opzionale. I LED presenti, integrati all'interno dei profili teca possono essere gestiti secondo tre opzioni differenti. tali opzioni gestiscono l'illuminazione completa delle composizioni madia Emme. I led opzionali possono essere previsti:

1. senza alcun interruttore On/Off, quindi essere gestiti semplicemente tramite aggancio alla rete domestica;
2. con interruttori On/Off dedicati ad ogni barra led presente, che quindi avrà tasti di accensione integrati sui Led;
3. con interruttore On/Off esterno unico, che gestisce l'accensione e lo spegnimento simultaneo di tutta l'illuminazione presente all'interno della composizione;

Optional lighting. The present LEDs, integrated into the metal Teca profiles can be managed according to three different options. These options manage the complete lighting of the Emme sideboard's compositions. The optional LEDs can be provided as follows:

1. without any ON/OFF switch, so they can be managed simply by hooking up to the home network;
2. with dedicated ON/OFF switches for each present LED bar, which will therefore have power buttons integrated on the LEDs;
3. with unique external On/Off switch, which manages the simultaneous switching on and off of all the lighting present inside the composition.

AL FINE DI CONSENTIRE UNA OTTIMALE MANUTENZIONE E CONSERVAZIONE DEL PRODOTTO,  
RIPORTIAMO QUI DI SEGUITO ALCUNE UTILI INDICAZIONI.

TO ALLOW AN OPTIMAL MAINTENANCE AND STORAGE OF THE PRODUCT, HERE BELOW SOME USEFUL INFORMATION.

#### PULIZIA DI SUPERFICI IN GENERE

Utilizzare un panno morbido (eventualmente inumidito). Si raccomanda di non usare per nessuno motivo prodotti abrasivi, solventi, diluenti, alcool o prodotti corrosivi. Non lasciare panni bagnati a contatto le superfici.

#### VARIAZIONI DI TONALITÀ E COLORE

L'uniformità cromatica dei colori laccati e degli impiallacciati può variare nel tempo quindi, in caso di completamenti, una eventuale differenza di tonalità non costituisce motivo di contestazione. È consigliabile inoltre posizionare i mobili lontano da forti fonti di calore e dalla luce solare diretta.

#### PULIZIA DEI VETRI

Utilizzare un panno morbido con detergente per vetri. Si raccomanda di non usare per nessun motivo prodotti abrasivi, solventi, diluenti, alcool o prodotti corrosivi.

#### ATTREZZATURE ELETTRICHE INTERNE

Sono tutti forniti con marcatura "CE" che ne attesta la conformità alle direttive CEE (CEE 72/23, CEE 89/336), di marcatura "ETL" (Electrical Testing Laboratories) certificazione necessaria per i prodotti commercializzati su territorio nord americano, indicatore di conformità del prodotto alla stretta normativa di sicurezza vigente sul territorio.

Inoltre risultano conformi alle normative CEI in materia di sicurezza elettrica (CEI 34-21 e EN 60598.1).

#### SURFACE CLEANING IN GENERAL

Use a soft cloth (possibly dampened). It is recommended not to use abrasive products, solvents, thinners, alcohol or corrosive products for any reason. Do not leave wet cloth in contact with the surfaces.

#### VARIATIONS OF TONE AND COLORS

The color uniformity of lacquered and veneers may vary over time so, if completed, a possible difference in shades does not constitute grounds for controversy.  
It is also advisable to place the furniture away from strong heat sources and from direct sunlight.

#### GLASSES CLEANING

Use a soft cloth with glass cleaner. It is recommended not to use abrasive products, solvents, thinners, alcohol or corrosive products for any reason.

#### INTERNAL ELECTRICAL EQUIPMENT

All are provided with "CE" marking that conforms to the EEC (EEC 72/23, EEC 89/336), "ETL" (Electrical Testing Laboratories) certification required for products marketed in North America, indicator of product conformity to the strict safety regulations in force on the territory. They also comply with CEI regulations on electrical safety (CEI 34-21 and EN 60598.1).
