CARATTERISTICHE TECNICHE | TECHNICAL CHARACTERISTICS

CASSETTI | DRAWERS

In entrambe le configurazioni della collezione Cosmo sono presenti cassetti con guide estrazione parziale e soft closing di serie. Estrazione totale opzionale con maggiorazione valorizzata nel listino da pagina 163. Nella versione solo cassetti (A) i tavolini presentano apertura bifacciale, sono dotati quindi di due cassetti. Nella versione con raster in cuoio (B) la collezione presenta solo un cassetto.

Both configurations of the Cosmo collection feature drawers with partial-extension runners and soft closing as standard. Full-extension is optional with a surcharge shown in the price list from page 163. In the drawer-only version (A) the small tables have a double-sided opening and are therefore equipped with two drawers. In the version with leather raster (B) the collection has only one drawer.
