CARATTERISTICHE TECNICHE | TECHNICAL CHARACTERISTICS

GESTIONE DEI PIANI | TOPS MANAGEMENT

Il doppio piano di appoggio, con cui è caratterizzata la collezione dei tavolini Line, viene gestito sempre con la monofinitura per garantire un'armonia estetica e funzionale. La finitura scelta nel piano superiore quindi, dovrà rispecchiare la stessa del piano inferiore. Es: se il piano inferiore è in Marmo Carrara (PNA.001) il piano inferiore seguirà la stessa linea e viceversa.

The double top, with which the Line coffee table collection is characterised, is always handled with a single finish to ensure aesthetic and functional harmony. The finish chosen for the upper top must therefore reflect the same as the lower top. E.g.: if the lower top is in Carrara Marble (PNA.001) the lower top will follow the same line.
